

Low Carbon High Growth Eco Cities – The Cleantech Business Opportunities & meetings with Cambridge Cleantech delegation visiting from the UK

31 March 2014 (midday onwards)

Conference Hall 04-06, 2/F., Lakeside 2, Phase 2, Hong Kong Science Park, Shatin, Hong Kong

Following on from our work around Asia, including participation at Asian Development Bank's Urban Forum at ADB's HQ in Manila and at the IGEBG Green Technologies Expo in Beijing, we are delighted to confirm this strategically important seminar in Hong Kong featuring leading members of Cambridge Cleantech who are visiting Hong Kong as part of their 2014 trade mission.

Cambridge Cleantech is driving the development of Europe's fastest growing cleantech cluster and sets the benchmark in many areas of cleantech development. It provides commercial support to organisations that are developing and delivering goods and services in response to the global environmental and sustainability challenges we all face. From low carbon technologies and renewable energy, to more environmentally friendly products, members are driving innovation to safeguard our planet and its resources for generations to come. Cambridge Cleantech supports its 300 members and the wider community of nearly 5,000 cleantech companies by providing services including access to finance, supply chain opportunities and global introductions.

Martin Garratt, the Chief Executive of Cambridge Cleantech is leading the delegation, will be making a keynote address and along with other delegation members, will be available for discussions and meetings with Hong Kong based companies during the event.

11.30 Arrival

12.00 Welcome address and keynote presentation, Nicholas Brooke, Chairman, Hong Kong Science and Technology Parks
